THE GREATEST

MEDICAL DISCOVERY

Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR;

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a running ulcer of twenty years standing.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of boils

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst case of Erysipelas

One to two bottles are warranted to cure all humors in the eyes

Two bottles are warranted to cure running of the ears and blotches among the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruption of the skin

Two to three bottles are warranted to cure the worst cases of ringworm

Two to three bottles are warranted to cure the most desperate case of rheumatism

Three to four bottles are warranted to cure the salt rheum

Five to eight bottles will cure the worst cases of scrofula

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken

Reader, I bedded over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another, after a trial it always speaks for itself There are two things about this herb that appear to me surprising first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor

In order to put the remedy into the hands of the sick and great popularity of the discovery I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters

In my own practice I always kept it a secret, for humbug—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles O, what a mercy it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have

I know of several cases of Dropsy, all of them aged people, cured by it For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c, the discovery has done more good than any medicine now known

No change of diet ever necessary—eat the best you can get, and enough of it

DIRECTIONS FOR USE—Adults one tablespoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful As all directions can be applicable to all conditions, take sufficient to operate on the bowels twice a day

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H H HAY, 15 & 17, *Market Square, Portland, Maine*, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces

28 WINTER STREET!

VERY, VERY CHEAP!

FOR SALE AT

ADAMS'

WAREROOMS,

(Removed from Washington Street.)

Owing to the continual demand all through the past season for their peculiarly easy fitting CORSETS, they have been induced to order largely, and would now offer the French, English and German Corsets at *unprecedented low prices*, together with all the beautiful varieties of MRS ADAMS' own French made Corsets, which are now too well known and appreciated to need comment It being the intention of Mrs A to sell off the Corsets that are the old stock in Boston this spring owing to the prices, she would beg that ladies will bear in mind that 28 Winter Street is the only place where Mrs. Adams is to be found, it being the impression with some persons that she still has a store, or Corset Warehouse, in her old neighborhood Her desire is to guard her customers from such a mistake.

Inquirers of the Boston or New York Customs who is the most extensive importer of Corsets in the States. They will tell you, GEO W ADAMS, of 28 Winter Street.—This establishment is conducted on more liberally low price principles and at all times posted and supply supplied with every style of Ladies Jacket or Corset in vogue One of the chief of the House is in Europe conducting the manufacturing and shipping the goods to the country—these facilities are according to enable to sell much less than others in the business, together with a determination to keep the lead by disposing of both low and high priced goods at very small profit. It is well known that Mrs Adams has long been the leading corset dealer in this country, having had during thirty years, much experience and opportunity for advancing Immense talent in the best French and English schools, and also from being the first woman patentee in America. The celebrated ADAMS' PATENT ADJUSTABLE SUPERIOR, so justly pronounced by *Sir Astley Cooper* and *Sir James Clarke* as the cleverest thing in the shape of a corset, is her own invention—those in need of the article will please make personal application as above.

For sale also, the FRENCH PATENT WERLEY CORSET of the Boston Agent, as above.

Dealers can be supplied with Mrs. Adams' French Busts, for the exhibition of Corsets They may also be furnished with her French metallic cuts, for advertising

JESUITISM!

THE CATHOLIC LETTERS,

Addressed to a Young Kinsman, about to Join the Church of Rome

BY E BASKETT DERBY, ESQ

In one volume, 12mo ——— Price 75 cents

These Letters covering the whole Catholic question, are without doubt, the most able and learned resume of the subject ever given to the world

The arguments and the conclusions are masterly and irrefutable, and strange as it may seem for an eminent layman to have disinterred and coke and, for a time, bent the whole energies of his mind, with that keen sagacity peculiar to the legal profession, to an exhausting research among the tomes of the Fathers of Theology; with the success which he has rendered to the cause of truth and the fact that his labors resulted in clamping for life the course of a beloved kinsman, who would other wise have joined the Church of Rome, will ever be a cause for gratitude

One of the merits of the work is a spirited review of Bunsen Hewson Cumbrave Milner, and other modern writers, and a well digested argument on the planting of the Church in Britain by St Paul before the Roman Pontificate was founded

Rev Dr Peabody in a note to Mr. Derby, after a careful reading of proof-sheets, uses the following language "Your main argument it seems to me is to the point and overwhelmingly conclusive. I hope, and do not doubt, that it will do much good while it is honorable to yourself both as a parent and a scholar"

We believe this work is destined to become

A wide mention of unanswerable arguments against the falsehoods of Romanism

Mr. Thomas J. D. Fuller

Sends a letter to the *Bangor Journal*, (which was published on Monday) exculpatory of himself for the votes he gave in the Herbert and Brooks cases in the House. In doing this, he has selected a very proper organ.

In the first case, Mr. Fuller sets up the defence that the House has no power to expel a member for any disorderly conduct or assault *out of the House*—he being amenable to the laws for the same. This doctrine if true, might be strained so as also to shield the bully Brooks, (for his assault upon Mr. Sumner was not made during the session.) It would, at any rate allow any Congressional ruffian to commit a cowardly assault upon any citizen, and yet get clear of consequences by paying a fine of $10 or $20 for an "assault and battery." Tom Hyer, if sent to Congress by the Five Points district of New York, might thrash an editor, a Judge of the Supreme Court or an Irish waiter, six times in a week, and the House would be compelled to submit to his continued presence and membership, in full communion with decent and respectable representatives. We don't believe in the doctrine which Mr. Fuller sets up as a justification for his vote to let off the murderer of Keating. We believe the provision of the constitution quoted by him, viz. "That each House may punish its members for disorderly behaviour, and with the concurrence of two-thirds expel a member" was meant to embrace something more than mere disorderly behavior, *in the House*. We do not believe that the House of Representatives of the United States is compelled to endure the disgrace of having a notorious bully and blackguard as a member because he may confine his assaults to the *outside* of the Capitol, and may answer to the *law* for each of them, by paying the fines imposed by a magistrate. It seems, too, that 70 members of the House diff red with Mr. Fuller in this matter, and that those who voted with him to let Herbert off from investigation are singularly enough all Democrats, as Herbert is himself. Then, again, the resolution of Mr. Knowlton, was only for an *inquiry*, and that could have infringed none of Herbert's rights as a member. Mr Fuller felt obliged, however, to make some excuse for his vote in this case, of the murder of the Irishman—and insufficient though it is, he could offer no other. Mr. Kelley of New York, who is a countryman of Keating's, did not think that Herbert's privilege shielded him from a Congressional inquiry. To say the least, Fuller would have looked better if he had voted to *inquire* into the matter. Even the Senate voted to *inquire* into the Sumner outrage, although they couldn't punish Brooks.

In noticing this part of Mr. Fuller's attempt at exculpation, it will be observed that he places it on exactly *opposite* ground from that on which the Bangor Journal tried to excuse his conduct. He says that Herbert is shielded from punishment by the House because the House has no power to punish a member, while the Journal said that the House could not touch him *because he was not a member*, his seat being contested. We leave them to settle it between themselves, as to which defence they will set up. The two motions will not go together very well.

In the case of Brooks, Mr. Fuller appears even worse than in the Keating affair—making strenuous and very palpable efforts to dodge the fact that in all the real test questions he voted with the slave holders to stifle investigation. He says he thought it a question of privilege, but other gentlemen thought otherwise, and he wished to hear that side. So when the Speaker decided that the question was a privileged one, and the slave-holders appealed from the decision, he voted *with* the slave-holders against his own opinion. This is the state of the case, if we understood Mr. Fuller's explanation. It was certainly carrying complaisance a great way, especially as the effect of a majority vote against the decision would have been to *defeat the investigation*. We wonder if his complaisance would have gone as far on the other side.

He also carried his "courtesy" to the slave-holding friends of Brooks so far as to vote against the northern men on the ordering of the previous question—thus being willing to afford an opportunity for talking the resolution to death in a debate of three or four weeks perhaps. "He intended to vote for the resolution, from the beginning." Of course, undoubtedly, provided he and and his Southern friends could not kill it off, as they tried to do, before *coming* to any direct vote. He would hardly venture to vote point blank against the resolution—any more than he dared to vote *directly* for the repeal of the Missouri Compromise in the passage of the Kansas-Nebraska bill. On *that* occasion he voted with the pro-slavery men on the preliminary though test votes, and in the call for the previous question, his vote was *for* the question, instead of against it as in this case.—The previous question was then moved by the pro-slavery men. In the Brooks investigation case it was moved by the friends of free speech.

Let us draw a comparison with Fuller's action on the Nebraska bill. In the Brooks outrage Mr. F. "thought it was a question of privilege," and that it demanded some action by the House, but as others thought differently (amongst whom was his friend Herbert) he was "desirous of hearing that side." Excellent legislator! Impartial and consistent statesman!—Where was your desire to hear the other side" when the Kansas-Nebraska outrage was being disgorged through the House by force of violated rules in the hands of a venal and corrupt Speaker? How did you vote on the 8th of May, 1854, when Richardson moved to lay aside all other business and take up the Nebraska bill? How did you vote on the 15th of May, the day of the great struggle on Richardson's motion to close the debate on the ensuing bill? You were opposed to the Kansas bill, you said, and finally voted against it. But upon all the previous test questions you voted as though Herbert stood in front of you with a pistol and Brooks behind you with an uprasired cane. Four times on that last named day you voted against an adjournment and in support of your slave masters; against freedom in the territories and the discussing that freedom. You voted to put no obstacle in the mouth of the North when its defenders were wanted to discuss the great question of freedom for a territory larger than the Empire of France; and you voted for the broadest liberty of discussion to see if one slave-holding sight not escape even rebuke by ridiculous quibbles. You voted against the previous question because "it cut off debate." Where was your solicitude for debate when the previous question was called by Richardson to snuff out debate on the Kansas bill? You THEN voted for the previous question. You voted against laying that motion on the table. You voted against adjourning for a day certain. You voted against adjourning at all. On that day the slave drivers had a majority, and you sided and abetted them up to the final vote. Mr. Donald's course was more manly than yours; he faced the music to the bitter end—you acted the part of the Government Marshal at the sack of Lawrence, you led the ruffians into the city, under the flag, and "to the music of the Union," and then turned them over to Sheriff Jones to do the work of plunder, of assassination, of arson. You have secured a place in the memory of the freedom loving people of Maine.

Phelan quit Speaks for Freedom.

DOVER, June 7, 1856.

GENTS.—A meeting of the citizens of this county was held in this village to-day, for the purpose of expressing their indignation at the recent outrages perpetrated in Kansas and at Washington. The spacious hall, the largest in the county, was densely crowded at an early hour, and a large number were unable to gain admittance.

Nath'l Chamberlain, Esq. of Foxcroft, called the meeting to order, and made a stirring appeal to all present, to forget past differences and unite in arresting the further extension of slavery. He gave a history of the triumph of slavery from time to time through the aid of northern doughfaces. At the conclusion of his remarks he nominated Hon Joseph Kelsey for President, which was unanimously carried. Rev. A. A. Richards, of Milo, was called for and spoke briefly of the present condition of our country, of the agitation which now convulses it, and the great question which presents itself to us—Shall the people of the United States *rule* or shall they *be* ruled.

Hon John Elliot of Abbot, and Nath'l Chamberlain, Esq. of Foxcroft, were appointed Vice Presidents. C. H. B. Woodbury of Dover, S. Whitney of Sangerville, Secretaries.

A committee on resolutions was nominated by the President, consisting of the following gentlemen:

J. H. Macomber, Esq. of Milo; Col. Elliot of Abbot; Elisha Hasseltine, of Dover; Jos. Magoon, of Sangerville; Maj. S. Cushman, of Monson; Dr. Josiah Jordan, Foxcroft; N. Hinds, Dover.

Mr. Macomber, in behalf of the committee, submitted a series of resolutions which were adopted amid loud applause. A. G. Lebroke, of Foxcroft, was called for, and his appearance was greeted with great enthusiasm. He spoke for nearly two hours of the wrongs of Kansas—of the outrages committed upon the peaceful citizens who are denied all protection by the government,—of the process by which free men were to be "subdued," and the liberty of speech crushed out. Any attempt to give an idea of the address would do injustice to it, and I will not make the attempt.

There has been a great revulsion in this county of late, which will manifest itself at the polls in September next. Many who were Straight Whigs last year from principle will never consent to be sold to slavery and locofocoism,—the spell is broken.

FROM ONE OF THE PEOPLE.

THE AMERICAN JOURNAL OF EDUCATION, edited by Henry Barnard LL.D. is published bi-monthly at Hartford Connecticut. We are indebted to Messrs Ferridge & Co., Boston, for the May number, which is the fourth.

It contains many valuable articles, among which is one entitled "The Magnitude of the Educational Interest in the United States," embracing a great amount of statistical information.

It is for sale in this city by A. Burnett at his bookstore in Harlow's Block.

SUICIDE.—Nehemiah Kimball committed suicide in Hermon on Monday, by hanging himself with his handkerchief in the woods.

The New York Tribune states that Mr. Buchanan is in his seventieth year.

A "DEMOCRATIC" PAPER IN MAINE OPENLY EXCUSES THE COURSE OF "BULLY" BROOKS.—The Rockland Democrat has sounded the lowest depths of political depravity in its comments on the Sumner outrage. We present the following extracts from its article:

"But did Sumner offer no provocation, had he conducted himself with the decorum and dignity of a Senator, or did he wantonly insult, and, by his own folly and aggravating language bring upon himself a *chastisement which he merited*? If so, public censure should fall upon *him*, and not upon the man whom he exasperated by his abusive words to perform the deed.

It is no wonder if Mr Brooks was carried beyond the limits of prudence, and sought the readiest means to avenge his friend.

In any event, the *bloody victim* (Sumner) will receive *all the sympathy he deserves*.

There is not one redeeming trait in the attack of Mr. Sumner, (upon Mr. Butler) characterized as it is by malignity of temper, disregard of truth, and cowardice; while in that of Col. Brooks, (upon Mr. Sumner,) however much we condemn the act, we *must admire* the devotion to his friend and State which betrayed him to such rashness."

The Boston Courier styles Senator Butler a "courteous and amiable gentleman," and that disposition was in his seat for the debate and happily responds, "You are a liar!"—*Lynn News.*

THE SOUTHERN PRESS UPON THE SUMNER OUTRAGE. Some of our northern papers are representing that the Sumner outrage is very generally reprobated at the South. On this point we quote a nice article from the Richmond *Enquirer*, the old democratic organ of Virginia:

In the main, the press of the South applaud the conduct of Mr. Brooks, without condition or limitation. Our approbation at least is entire and unreserved. We consider the act good in conception, better in execution, and best of all in consequence. These vulgar Abolitionists in the Senate are getting above themselves. They have been humored until they forget their position. They have grown saucy, and *dare to be impudent to gentlemen!* Now, they are a low, mean, scurvy set, with some little book-learning, but as utterly devoid of spunk of honor as a pack of curs. Intrenched behind 'privilege,' they fancy they can slander the South and insult its representatives with impunity. The truth is, they have been suffered to run too long without collars. *They must be lashed into submission.* Sumner, in particular, ought to have nine-and-thirty early every morning. He is a great strapping fellow, and could stand the cowhide beautifully. Brooks frightened him, and at the first blow of the cane he bellowed like a bull calf. There is the blackguard Wilson, an ignorant Natick cobbler, swaggering in excess of muscle, and absolutely dying for a beating.—Will not somebody take him in hand? Hale is another huge, redfaced, sweating scoundrel, whom some gentlemen should kick and cuff until he abates something of his impudent talk. Let them once understand that for every vile word spoken against the South, they will suffer so many stripes, and they will soon learn to behave themselves, like decent dogs.

The Voice of the Germans.

A meeting of the Germans of Boston was held on the 2d of June, in the Turners' Hall—Dr. Wesselhoef, Chairman, A. Babo, Dr. Schulze, A. Nabmer, Secretaries. The following resolutions were passed unanimously.—

Whereas, Senator Sumner of Massachusetts, for having solemnly denounced the violators of liberty, has been brutally assaulted by Preston S. Brooks of South Carolina, in the very hall of the Senate, and

Whereas, The so called Democracy and the present Administration, both the pliant tools of the slaveholders, have trampled under foot all republican principles by betraying the citizens of Kansas, and surrendering them defenceless to the mercy of the border ruffians of Missouri, and

Whereas, In such critical times, it is the duty of all citizens to express their sentiments without reserve

Therefore, We, the Germans of Boston, in meeting assembled, have

Resolved, That Senator Charles Sumner, for his manly and fearless defence of liberty, deserves the gratitude of every freeman.

Resolved, That the said outrage itself, and the applause with which it was greeted by the Southern press, undeniably prove the moral degradation caused by slavery, and clearly show that only by an ardent and unremitting warfare against this institution, can a republican government be preserved

Resolved, That the Democratic party, the venal servant of the Southern Oligarchy, is hostile to the true interests of this Republic, and unworthy of our confidence.

Resolved, That the Republican party, in their struggles against the extension of slavery, which we regard as the first step towards the final abolition of this great evil, deserve the confidence and energetic co operation of every German who is a lover of liberty.

Resolved, That copies of these resolutions be sent to Hon. Charles Sumner and Hon. Henry Wilson.

More Ruffianism Threatened.

A New York despatch of the 9th says.

It was rumored on Saturday and yesterday that Henry Ward Beecher's church, Brooklyn Heights, was to be attacked by an organized band of those who had taken offence, or employed by those who had taken offence, at the very plain language in which Mr. Beecher has discussed the exciting events that have recently occurred in Washington and Kansas. The demonstration was set down for last night, but intelligence of their intentions having reached the Chief of Police of Brooklyn, Major Hall and about fifty policemen were present, to check any aggressive or disorderly conduct.—The church was crowded, as usual, and there was a large collection outside, including the police, but no attempt at disturbance was made.

A week ago last Sabbath, the pastor of the York street Methodist church received an anonymous letter, stating that if he attempted to preach on Sabbath evening, his church would be attacked by a mob. He did preach, however, but an effective police force was stationed round the premises, which doubtless prevented the threatened disturbance.

DOGS AMONG SHEEP.—*Fearful Scene in a School Room*.—The Cleveland Herald has an article stating that great havoc has been committed by dogs among flocks of sheep in different parts of the State. One farmer had ninety killed in one night, another lost an entire flock of thirty, and so on. The following incident is said to have occurred on Friday last, in the town of Orange.—

A middle sized savage dog, belonging to Mr. Honeywell, rushed into the school house, among the children, biting them right and left. One little girl was dragged all around the school house by the brute, and six children were bitten. One little girl had a large piece of flesh taken from her hip. The children sought refuge under the benches and wherever they could, to get out of the reach of the dog. A man came with a club to the relief of the children, and killed the animal. The dog, according to the statement of the wife of the owner, had been kept tied up through the winter and spring, of course, because it was a dangerous animal. One of the owner's children were among the bitten. Mr. A. M. Lloyd, from whom we get these facts, was at the spot soon after the occurrence, and the women were cleaning the school house and scrubbing the benches, fearing that the dog may have been mad. As the animal was killed, of course it cannot be known whether it was mad or only naturally savage. The children were under treatment, but of course their friends will suffer under fearful apprehensions for a long time.

MELANCHOLY DEATH. We learn from the Andover Advertiser that on Wednesday night last, Mrs Mary Cooper, wife of Edward Cooper, got up during the night while in a somnambulistic state, took a tub, pail and washboard, and went to a pond in the rear of the house, where her dead body was subsequently found. In the early part of the night she awoke and said she had been dreaming of working hard.

NEW YORK, June 7. (Cincinnati correspondence of the Tribune)—Cincinnati, 6th. The combination against Buchanan only faded at the last moment, and by the falling out of two or three voices. Tennessee would have held out had Massachusetts promised to hold five votes for Douglas to the end; she would give but three. There is much bitter feeling latent among the friends of Pierce and Douglas, but outside all is harmony and rejoicing.

CALIFORNIA.—There are quartz claims in Grass Valley, the preparatory work on which, aside from machinery, engines, &c., has cost $50,000 to $75,000. There are thousands of placer mines all over the State, which make but a small show upon the surface, but have yielded from $20,000 to $75,000 before the Spring has been returned.

TERRIFIC AND DISASTROUS TORNADO. An extra from the Dallas (Texas) Herald, dated May 6 gives the full particulars of a terrible storm.—

The storm commenced just before sundown, within a mile of Cedar Hill. Two clouds were seen to come together at that point, one from the North and the other from the South, and engage in an angry contest for the mastery.—Neither being able to gain the ascendancy, they became blended into a terrible whirlwind, which descended with such force and violence as to involve the earth in darkness, literally ploughing up the ground, and picketing it with fragments of broken timbers. Everything on top of the ground was blown away, and posts and timbers fixed on it torn up and blown away, or torn to pieces. Even the grass on the prairie was shorn off as with a fire or scythe.

The fury of the storm, as it approached Cedar Hill, was first severely felt at Mr Roper's, whose house was unroofed. It then swept away the residence of William C Hart, at Cedar Hill, injuring him severely. The dwelling and storehouse of Mr. Berry was dashed to pieces. The very foundations of these buildings were removed, and the foundation timbers and the mutilated bodies of the dead were scattered about in every direction. All the goods in the store, except a few heavy articles, were blown entirely away. A piece of silk, double from the store, was found the next day in the vicinity of Cedar Spring, on the side of the river, twenty miles from Cedar Hill. A hat-box, containing one hat, fell the next day on the premises of Mr. Tucker, near the White Rock Creek, 25 miles from the place, and another hat has been found on Roulet's Creek, upwards of 30 miles off. Other articles have been found nearer to the scene of disaster.

In Berry's family five persons were killed—Mr. Berry, his wife, child, Mr. Dickson, a clerk in his store, and a negro woman. None of the family are left to mourn. Berry's skull was broken, and his brain scattered on the ground. Mrs Berry's face and body were frightfully lacerated, and the other bodies much bruised. Mr. Dickson fled from the house, and seeing that he was about to be carried away, seized a post fixed in the earth, around which he was whirled until he was tied fast to it by his clothes. The post was torn up and driven by all the fury of the storm to the ground, and whirled about, with the body of the unfortunate young man fastened to it, until every bone in his body was broken, and his flesh dreadfully mangled. When found he was so securely bound to the post that he had to be disengaged by cutting his garments.

Mr. John Hart and family were the next sufferers. Himself and wife and child were killed, being all the family, we believe. The body of Mrs. Hart was shockingly torn and mutilated. The little child was carried several hundred yards, and its head was transfixed with a splinter. It was not found until the next day. Mrs Allen, wife of Jacob Allen, is the last in the list of fatal casualties. We have not learned the particulars of her case. Every house in the village was razed to the ground, and, except small portions of the foundations of some, blown away.

LARGE ROBBERY—CHLOROFORM USED.—A gentleman from New Orleans was robbed at the Gilt House night before last, of $4,600—the money consisting of nine $500 notes and one $100 on the New Orleans banks. Three of the $500 notes were on the Louisiana State Bank. The robbery was effected in the following manner: His room was entered through the transom and he was put under the influence of chloroform. The thief then took the key of the trunk from the gentleman's pocket, opened it, and not finding any money, examined his person, where he discovered the money in a handkerchief, tied around his body. The gentleman was to leave in the early cars, and was called for that purpose, but as no answer was received, the room was opened, and he was found perfectly stupified from chloroform. Medical aid was called in, and the gentleman was revived. He offers a reward of $1,000 for the recovery of the money.—*Louisville Journal, June 8.*

Kansas Aid Meeting at Worcester—$4500 Subscribed.

Worcester, June 9. One of the largest and most enthusiastic meetings ever held in this city, was convened here on Saturday evening in aid of Kansas. Four thousand five hundred dollars were subscribed on the spot, and the contributions will be largely increased in the next three days. A large number of men have volunteered for homes in Kansas, and some of the bravest and most experienced of the military men of the county, will take the command.—There is great excitement in all this region, and the determination is that Kansas shall be free. Judge Washburn, Judge Allen, and Judge Barton, are among the largest contributors to the funds.

A French paper relates a singular and startling incident:—At a ball lately given at Port Louis, near Lorient, while a young lady was waltzing, she felt the hand by which she was supported become stone cold, and on looking into the face of her partner found his features to be deadly pale and horribly contracted. She fainted at the sight and fell to the ground, whilst the cavalier dropped at her side. The lady was taken up and recovered, but the life of the gentleman was extinct. She maintains that he was dead several seconds before she knew it, and that she made one turn around the room with him after he was a corpse.

A man who has figured largely as Colonel Johnson among the border ruffians led by Atchison and Stringfellow, and who aided Sheriff Jones in the sacking of Lawrence, has just been recognized as a person named Ambler, who, about six months ago, absconded from Batesville, Arkansas, to avoid an arrest for forging $3000 worth of land warrants. He has been secured and taken back to Arkansas.

The kindred outrages, at Washington and in Kansas are at length forcing their way to the very depth of the northern heart, and we trust are producing the only result which can be of any practical utility,—namely, a wise determination to forego for the present all former divisions, and to unite upon a presidential candidate opposed to the administration party, which is alone responsible for the present excitement.—*Salem Gazette* (*Whig*)

THE CAMELS. It has become quite a common sight to see camels and dromedaries marching through our streets. The camels are now employed in carrying government freight from Powder Horn to the depot. They carry the enormous weight of 1600 pounds, and with the greatest ease. The sight of them stampedes all the horses and mules that come within sight of them. They are certainly not handsome creatures.—*Indianola (Texas) Bulletin, May 23.*

A LONG BREAKFAST.—"What's my bill," said a burly delegate from one of the South-western cities, coming from one of the stalls at the St Charles the other morning, and addressing a boy at the bar.

"What have you had, sir," inquired the *garçon*.

"Six brandy cock-tails, ten and toast," replied the drowsy politician.—*Cin. Commercial.*

Holloway's Pills, a cure for Sick Headache and Bile. Wm Kasers of Bowes, Me., was perhaps one of the greatest sufferers from sick headache and bile, scarcely a day passed without his feeling the dreadful effects of these formidable evils he put himself in the hands of the doctors, but they did him no good in fact, he became worse until his sufferings were more than human nature could bear, and he almost sunk under them fortunately for him he commenced using Holloway's Pills, which acted upon the system, cleansed the bowels, cleared the head, and by persevering with them for eight weeks, thoroughly restored him to health. He has ever since been entirely free from these dreadful attacks.

To all Bald Headed People!

NOTICE EXTRAORDINARY.

☞Reader, do you desire a good head of Hair? If so, use Dr. Lyon's Sicilian Hair Tonic. It is for the scalp what Guano is to the soil—the great invigorator and restorer of nature's own. Do you believe that hair, soft and silky as in youth, has been produced on heads that had been *bald for years*? Such is the case and to satisfy the public we mean what we say, we will pay all necessary expense incurred in visiting Lawrence if not satisfied that such has not been done in Lawrence in a great many instances.—Further, the subscribers offer to *warrant* a good soft, silky head of hair to any one enjoying good health and not over fifty years of age, for twenty-five dollars, or no pay.

WASHINGTON, June, 10.

SENATE.—Mr. Crittenden submitted a resolution requesting the President in view of the difficulties existing in Kansas and the employment of military force for the restoration of peace and harmony there, and to send Gen Scott to take command of those forces.

Mr Crittenden said, it seemed to him that the Senate but very seldom had under their consideration a subject of more importance — It was enough to make them feel ashamed, for the spectacle now presented in Kansas They had been in session six months and not one step had been taken by them to remedy this social evil growing day by day, spreading wider and wider, and inflaming more and more, passions already too much excited, and the peace and quiet of the entire country seriously threatened. Of debate, there had been enough but not of the kind to contribute to impartial judgment but led to crimination and re-crimination.

He wanted to see a broad, general and fraternal peace and that must be the ambition of all.

In the course of his remarks, he said that General Scott carried in his left hand the sword and in his right hand peace, gentle peace, and by his voice trumpet-tongued, will do more than a thousand bayonets His object was to put an end to war and anarchy in Kansas.

Mr Mason was not now prepared to vote either for or against the resolution, and asked that it might lie over till to-morrow He has doubts as to the propriety of making such a request of the President, who, as commander in chief of the army, has sole power over the matter While entertaining the highest respect for the patriotism and judgment of the Senator from Ky he did not think the condition of things in Kansas called for the course proposed.

Mr Crittenden replied that as Gen Scott was an old man the President might feel some reluctance in ordering him on that distant service but in his opinion the Senate ought to endeavor to contribute to the promotion of peace in Kansas.

Mr Seward was in favor of sending Gen. Scott there, but thought it would be as well to do it by joint resolution He also suggested that it is preferable to Mr Crittenden's proposition be omitted, as the facts therein set forth are well known to the President, and the country.

Further consideration of the resolution was postponed till to morrow

Mr Foster offered a resolution directing the committee on commerce to inquire into the expediency of authorizing the issue of a register to the British built bark Resolute, which was abandoned by that gov't and found derelict in the Arctic Ocean by the Am whale ship Geo Henry and by her brought into the port of New London where she is now lying, all claim to and vessel by the Br gov't having been relinquished by the sailors.

Mr Mason proposed that the vessel be purchased by gov't, refitted, and sent back to the Br gov't as a present"

Mr Foster expressed gratification at this suggestion and in order that it might be carried out, he withdrew his resolution Adj

HOUSE.—Mr Burlinghame presented resolutions of the Massachusetts Legislature concerning the assault on Senator Sumner, which were laid on the table and ordered to be printed.

Members were present, but as many had paired off with absentees, the House adjourned

Republican Mass State Convention.

CONCORD, N H., June 10th.

A Mass State Convention of the Republicans for the choice of Delegates to the Philadelphia Convention June 17th, assembled this morning at Eagle Hall the weather was fine and the attendance large Hon George W Nesmith presided assisted by several Vice Presidents and Secretaries After the preliminary business a Committee selected at a preparatory meeting reported a series of resolutions. These resolutions relate entirely to the Slavery question, taking issue with the Democratic party, and closing with a recommendation of Fremont, and instructing the delegates from this State to support him in Convention for the Presidency

Speeches were made by several distinguished gentlemen in support of the resolutions, and they were adopted unanimously.

A Committee was then appointed to report the name of Delegates—6 at large and 3 from each Congressional District. At 1 o'clock the Convention took recess, to meet in the area of the State House at 2 o'clock.

In the afternoon addresses were made by Mr Sewell of Worcester, Mass, and Dr Cutler, of this State both late of Kansas, soliciting material aid Hon Ichabod Goodwin, of Portsmouth, chairman, was appointed to raise funds for that object The Committee on Delegates to Philadelphia reported Hon Amos Tuck, W H Weed, Daniel Clark, Benj. Pettingill, Levi Chamberlain and Daniel Blaisdell, Delegates at Large, with one Delegate from each Congressional District, which report was accepted Speeches by Ex Gov Kent, of Maine, General Nye, of New York, Hon John P Hale, M W Tappan, Joel Eastman, and Jacob Benton, closed the proceedings, and at 6 o clock the meeting dissolved

From Kansas.

ST LOUIS, June 9th

An extra of the Westport Times of the 5th, gives that reliable news has been received of the burning of the town of Bernard by the free State forces on the night of the 4th inst, and the destruction of from 12 to $15,000 worth of property.

A company of six men had arrived at Westport stating that at 3 o clock on the morning of the 4th, the abolitionists attacked and captured Franklin They numbered 300 and were opposed by only 12 or 15 pro slavery men Mr Fitzmaker and two others are reported killed

The men who made this report belonged to Capt Fleming's company of Emigrants, which left Westport against the abolitionists for an hour but being out numbered, fled when the town was taken

The investigating Committee are still in this city

The Steamer Grey Cloud has arrived here from St Pierre, after an absence of nearly a year She brings intelligence of the adjustment of the Sioux difficulties according to treaty stipulations

At a council held on March last, by General Harney it was resolved to give the Indians 76 days to restore the provisions and property they had stolen

At a council held on May 16th, 700 representatives of the various tribes came and delivered up 12 prisoners and a large number of horses and mules, etc, promising obedience to our government. Active operations against the Sioux are now closed

The Independence Mobile correspondent of the St. Louis Republican, writing under date of June 6th, says—Marshal Donaldson and four men, who had been discharged from official duty, were killed near Hickory Point on the 30 ult The Marshal was in the act of arresting some of the men who had attacked Capt Pattison's company After the surrender of Pattison's company, the free soilers commenced the work of destroying houses and driving men, women and children from their homes near Ball Creek. 150 men, under Capt. Reed, left New Santa Fe in pursuit of the marauders, but Col. Sumner arrived at Black Jack in time to prevent a conflict. It is reported that Franklin was not taken, though attacked by a large party of abolitionists. Gov. Shannon issued a proclamation on the 4th, commanding all persons belonging to Military Companies unauthorized by law, to disperse, otherwise they would be dispersed by force of the United States troops.

The proclamation requires all civil officers of the gov't to be vigilant in enforcing the laws against offenders, and protecting the property and persons of all law abiding citizens. The proclamation further says that all aggressive parties outside of the territory will be repressed, that the military force under the control of the Executive is ample to enforce the laws and protect the rights of citizens The proclamation of President Pierce of Feb. 11th, is appended, and notice given that it will be strictly enforced. A requisition has been made on Col Sumner for a sufficient force to insure obedience to the proclamation.

CHICAGO, June 10th.

The Democratic Press has a letter from Lecompton June 4th, giving details of the skirmish with Capt Pattison's Company

The account states that 30 Southerners proceeding from Westport to Bull Creek under command of Pattison encountered about the same number of free State men. Pattie had a number of free prisoners whom he arranged in front as a shield, the rest of his company fell back, under cover of the underbrush, armed prisoners and all behind logs and trees. The free State men then dropped down in the grass And a scattered firing was kept up for two hours, till Pattie surrendered unconditionally

Three Missourians escaped, among them Collman, the murderer of Dow. The free State party took 50 horses, a number of Sharp's rifles and U S muskets, besides a quantity of goods stolen at Lawrence.

A party of pro-slavery men including the Son of Governor Shannon, made a night attack on the house of Capt. Walker, five miles from Lecompton, but they were repulsed and young Shannon taken prisoner.

He was released on the following day, after which Shannon took a company of United States Dragoons and spent two days in searching the houses of Free State men, taking possession of all the arms and ammunition which could be found.

Mr. Buchanan endorsed by Douglas.

PHILADELPHIA, June 10.

There was an immense assemblage in Independence square this evening for the purpose of ratifying the nominations of the Cincinnati Convention. Processions marched into the square from all quarters of the city. Two stands were erected for the speakers. Salutes were occasionally fired from a small cannon — Mayor Vaux presided, and opened the proceedings with a few appropriate remarks He concluded by introducing General Case, who was warmly received and addressed the meeting at considerable length He enlarged upon the immense importance of the coming contest, which he thought was fraught with more serious consequences to the destiny of our country than any event since the Declaration of Independence was consummated on the spot where he stood. He spoke in favor of squatter sovereignty, *eulogized the present Administration*, and heartily endorsed the action of the Cincinnati Convention

Mr Douglas said, "Never, since 1800 when Jefferson was elected, were issues so important presented as at the present time. He saw in the series of measures spread out before him a sure guarantee of success. The Cincinnati Convention has performed its duties honorably, wisely, and patriotically. It has adopted a platform by a unanimous vote and nominated candidates.

Steamer Blown Up—Terrible Explosion.

MONTREAL, June 10th,

About half past one o clock, to-day our city was startled by the sound of an explosion which was followed by the explosion of the ferry boat of the Grand Trunk Railway, at Longueuil The boat was a complete wreck Her boiler was blown a tremendous distance on to the wharf, and everything in the neighborhood is completely shattered The works of the boat were completely new and were under the builders' engineers at the time

The train had just arrived filled with passengers who had been transferred to the boat.—Many were on the after part of the boat, but many more on the forward part The Captain was about to ring the bell, when the explosion occurred

We are informed by a gentleman from Boston, who was on board at the time, that the scene that followed the explosion was fearful

The steam rushed to the back part of the boat so as to completely blind those that were there All rushed hither and thither, shrieking loudly, many jumped into the river and were doubtless drowned. The gentleman asserts that he not fewer than 10 or 12 in the water A woman who was near the boiler had her child, blown out of her arms and carried into the air, coming down with the top of the freight shed. She herself was dreadfully injured We are told by passengers on board at the time, that the number killed must be upwards of twenty, and the number of wounded cannot be less than thirty or forty Immediately after the explosion the boat

The following were killed—2 Engineers, Mr. Madden, Mail Conductor, the pilot of the boat, a boy named Hunter, 2 firemen, a woman from St Hyacinthe, Mr Scofield Engineer of Brockville section G R., Henry Ballard, belonging to the office of the American line of steamers This may be conjectured from the fact that he is located from his locations and several fractures Mr Pierce, Express agent, has one leg broken and is badly scalded The Capt of the boat was severely injured and is not expected to live Mr Kinsman McCuaig, of Glengarry, seriously injured Narcisse Ferrault, from Warwick, Bagot Township, badly scalded, Major Johnson and lady were blown into the river and escaped with slight injuries These are all the particulars received up to this time, but there are about 50 passengers unaccounted for

A POLITICAL SERMON FROM PRESIDENT PIERCE.—On Saturday President Pierce the Hypocrite, in his gratification at the nomination of his rival Mr Buchanan, forgot that the President was not relieved from his oath of office by reason of his disappointment, and that he was still bound by the solemn obligation he had taken to execute the laws of the land. He forgot that he was President of the United States, and that it was his duty to see that the laws were faithfully executed

BALTIMORE Jan 8, 1856,

Messrs C & J Marshall—Gentlemen. At the request of your Agent in Baltimore in regard to our opinion and experience of your copper coated spikes we, without hesitation say we believe them the best substitute for copper yet introduced, and better fastening for ships inasmuch as you have the strength of iron with the preservative qualities of copper

We have used some of your Spikes in old vessels as a substitute for copper, and have had occasion to draw them out a year afterwards, and found them with the coating as firm as when they were driven and with no appearance of oxidation,

Very respectfully yours,

(Signed) JOHN D FARDY & BRO

Singer's Sewing Machines.

ALL PERSONS who desire to obtain full and reliable information respecting *SINGER S SEWING MACHINES*—their price capabilities advantages, sizes improvements method of working means of procuring them, and all other particulars—can do so by applying at our office,

No. 323 Broadway, New York,

by letter or in person for

I M SINGER & CO S GAZETTE

This paper is devoted entirely to the Sewing Machine interest Copies will be supplied gratis to all interested.

N B—The unparalleled success of our Sewing Machines has induced several fraudulent imitations of them besides numerous infringements of our patents—of which we own sixteen Suits for the infringement of our patents have recently been decided in our favor in the U S Circuit Courts in New York and New Jersey, In these suits the great principle of

Holding down the Fabric to be Sewed to the Surface of the Machine, by a yielding pressure,

which is used in all Sewing Machines—has been fully established The Wheeler & Wilson, and the Grover & Baker Sewing Machines as we allege each infringe three distinct patents owned by us. We have suits against them in several of the U S Courts, which will soon be tried We hereby caution the public not to buy any infringing Machines, as they can be compelled by law to stop using them, and to pay costs and damages

☞ Local Agents wanted to make sales of our improved sewing machines To persons properly qualified for the business, a rare opportunity for profitable and pleasant employment is offered

New and improved machines exchanged on liberal terms for old machines of every kind.

HELMBOLD'S GENUINE PREPARATIONS

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu.

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY

For Diseases of the Bladder, Kidneys, Gravel Dropsy, Weakness Secret Diseases Obstructions, Female Complaints

and all Diseases of the Sexual Organs whether in MALE OR FEMALE,

from whatever cause they may have originated and

No Matter of How Long Standing

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints It searches out the very roots of the diseases, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent

This medicine allays pain and inflammation, which other remedies invariably cause and can be taken with less trouble and expense to patients This infallible remedy has saved thousands upon thousands from the Hands of

Merciless Quacks

if not from premature graves In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOSITION. It is very agreeable to the taste, creates no objectionable odor and may be taken by persons of either sex without hindrance from business or medical advice as plain directions for use accompany the medicine Reader if you have any of the above complaint do not neglect them

Delays are Dangerous

With this medicine you can cure yourself, and thus prevent all exposure

Truth must and will prevail

This medicine speedily and effectually cures the most virulent form of secret diseases and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity*—And as a medicine which must benefit everybody, from the simply delicate to the confined and debilitated invalid, no equal is to be found, it acting both as a *Cure and Preventive* of any of the above ailments

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional diseases arising from an impure state of the Blood and the only reliable and effectual known remedy for the cure of scrofula, salt Rheum Scald head Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town country, hospital or private practice, they have invariably given the most decided and unequivocal satisfaction and produced the most salutary and beneficial effects Numerous letters have been received from the most distinguished physicians in the country and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation and the employment of different menstrua in successive operation to take up the extractive matters, and in consequence, are most frequently improperly made and not unfrequent by much impaired if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations It is, therefore of the highest consideration and importance to the public and to the faculty that there should be standard preparations of uniform strength and possessing the most advantages To effect this and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form and are the most active preparations which can be made Two fable spoonfulls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink and one bottle fully equals in strength one gallon of Syrup Sarsaparilla of decoction as usually made.
